MSDE 2000 (shipped free with product) MSDE 2000 is a royalty-free, redistributable database engine that is fully compatible with SQL Server. MSDE 2000 is designed to run on Microsoft Windows® 98, Windows Millennium Edition (Windows Me), Microsoft Windows NT® Workstation version 4.0 (with Service Pack 5 or later), Windows 2000 Professional and Windows XP as an embedded database for custom applications that require a local database engine. SQL Server 2000 SQL Server 2000 is a fully enterprise-class database product, providing core support for Extensible Markup Language (XML) and Internet queries. Features With timeware® ADT Edition it is easy to:

- Check your employee records are up to date, accurate and secure;
- Keep track of your workforce's holidays and absences or periods of sickness, qualifications and skills;
- Instantly call up on screen details of an individual employee's pay rate and rises, job history, medical details, banking details, disciplinary and grievance history, or next of kin.
- Merge employee information with MS Word format templates for letters or contracts.
- Produce charts, graphs and reports from your employee data and export information to MS Office applications. Many different reports and queries are already built in, and you can add your own.
 - timeware[®] server components can be run as services.

PC Requirements

- Minimum: Pentium III Processor 400Mhz Microsoft[®] Windows[™] 98 128Mb of RAM Microsoft[®] Windows[™] 2000/XP 256Mb of RAM 100Mb of available hard-drive space Colour monitor, 800x600 or greater resolution CD-ROM drive Network speed 10/100 Mbps
 - Recommended:
 - Pentium III Processor 1GHz Microsoft[®] Windows[™] 98 128Mb of RAM Microsoft[®] Windows[™] 2000/XP 256Mb of RAM 200Mb of available hard-drive space Colour monitor, 1024x768 or greater resolution CD-ROM drive Network speed 100 Mbps
